Case Study
Oaknet Healthcare

About Oaknet Healthcare Pvt. Ltd

Founded as Oaknet Lifesciences in 2015, the organization established its core strength in value integrated performance , in the space of NCD.

With the acquisition of Indian Operations of Adcock Ingram, the new entity created, Oaknet Healthcare Pvt Ltd, enjoyed the market presence and equity as a legacy business of Cosme Farma. The organization has now expanded their forte into specialties such as Dermatology, Gynecology & Orthopedics.

Oaknet Healthcare has become one of the fastest growing Indian companies to find a place in the top 100 companies in the IPM(Indian Pharmaceutical Market).

Oaknet's prime objective is to create a Sustainable, Scalable and Specialty centered pharmaceutical organization in India. Oaknet strives towards ushering a new era where best medical treatments will be affordable to the masses.

SAP On Cloud

To support and accelerate the exponential growth of the organization, Oaknet chose to integrate all the internal functions with SAP ERP. This enabled a communication within the organisation, thus increasing business productivity & efficiency.

After meticulously weighing the benefits of hosting their SAP workloads on cloud against existing on-premise infrastructure, Oaknet had chosen to migrate their SAP ERP application to Harbour1® - the enterprise cloud platform @Pi® This move was also in sync with the HANA roadmap for the organization. Below enlisted are few reasons, which compelled Oaknet to move their SAP to Cloud.

Scalability of cloud, which has the ability to handle dynamics business demands and heavy workloads.

Lower TCO and Savings on capital expenses around Infrastructure, Maintenance, Upgradation and skilled resources. This played a significant role in discouraging Oaknet, from continuing with the on-premise solution.

Migration from IBM Power Series Processor to Intel x86

Oaknet hosted their SAP ERP on dedicated IBM Power Series servers. Pi migrated Oaknet SAP ERP application onto SAP certified Intel x86_64 processor in order to enable significantly higher processing speed on private cloud. This migration was carried out seamlessly and was completed within a record duration of only 5 days.

Benefits Delivered With Harbour1®

> " Migration to SAP on cloud was made seamless & effective by Pi's team. The very tight timelines and schedules were perfectly met, with no compromise on quality. "
